“Raising Your Resonance
To A Higher Vibration”

JOY COACHING

We're Raising Our Resonance To JOY!

Are you ready to fulfill the full measure of your creation by experiencing greater joy? Are you ready to receive the validation and the assurance in your heart and mind of who you truly are? Are you looking for the divine blueprint for your "Original Personality"? When you look in the mirror, do you see the reflection of your magnificence and majesty? If self-sabotaging behaviors

and addictions of the past continue to manifest themselves in the present through irritability, aches and pains, health issues, cycles of depression, lethargy and/or premature aging, perhaps it is because the cells of the body are mini-micro-chips which store suppressed and deep-pressed emotions at the atomic level. Raising low frequency emotions such as Fear, Anger, Trauma, etc, must be done on a cellular level to be truly transformed into the higher vibrations of Love, Joy and Peace in the cellular memory. It's time to cleanse the fixed beliefs that are suppressing your joy! Discover that you truly are a brilliant spirit with your own innate wisdom! Through **JOY COACHING**, you can become a co-creator of the JOY that you choose to experience in life! It's a matter of re-programming the cellular memory through the heart-mind and re-patterning your thought-choices in the way that you process and internalize the stimulus around you.

Did you know that in ancient Greece, you could not become a physician until you first became a musician? In Queen Esther's day, you could not become a candidate for becoming the queen until you had first gone through a purification process involving emotional clearing techniques of the time. Did you know that the ancient philosophers prescribed "singing" and "humming" to their patients as a modality of balancing the heart, mind and body?

Reeducate yourself with the importance of "Self-Nurturing" through the healing vibrations of unconditional love, touch, song, scent, meditation, breathing techniques, etc through this series of eight inspirational workshops, in order to cleanse the energies that are blocking you from feeling and experiencing JOY.

In "The Cherishing Circle" we pursue the journey of becoming our divine potential as healers, wives, mothers, daughters, sisters and friends. We discover the "Inner Physician" within ourselves. We learn how to give and receive "Energy Infusions". We discover new and uplifting ways to gain inner peace as we turn our addictions over to the Divine Physician one day at a time in our "Divine Appointments" with Him. We find out how the healing vibrations of aromatherapy and music can assist in releasing the negative cyclical thought patterns that stir up deep-pressed emotions that turned into fixed beliefs, often originating in childhood. May you remember the truth of who you *truly* are and be set free to spread your wings and embrace the magnitude of your purpose here on earth.

Mission Statement

We embrace all women in the divine pursuit of developing the talent for JOY! We are

united in the cause of reclaiming our birthright of BEING "Joyful By Nature". We have combined interests in the healing arts of music, massage, aromatherapy, creative movement, scripting, guided visualization, breath-work, meditation, etc., and in becoming co-creators of Love, Joy and Peace. We are "Raising Our Resonance to Joy" by choosing out of the frequency of inadequacy, fear, doubt, self-judgment, blame and shame by attuning ourselves to the **ATONEMENT** of Jesus Christ. He is our Pure-Love Energy Source and our Perfect Healer of choice.

As **Cherishers**, we are reclaiming our divine stewardships as Pure-Love Energy Workers in our own homes. We are accessing our ability to do this through our gift of divine intuition. We believe that healing the heart-mind-body-spirit becomes the true artistry of cherishing. We support and are supported by "The Cherishing Circle": a network of friends who are united in "one family" for the purpose, calling and mission of nurturing souls, through Pure-Love Energy.

As an aid to for expanding the consciousness and subconscious mind and for accessing our **Pure-Love Energy Source**, we access the power of prayer, guided visualizations, gifts of nature and meditative breath-work as an integral part of our Joy-Coaching sessions. We understand that meditative breath-work coupled with prayer, assists in creating a synergistic effect for the heart-mind, through which "The Pure-Love Energy of Joy and Peace" may be conducted into the cells. We reflect a beautiful diversity of women who are anxiously engaged in the cause of pursuing the path that leads to Wholeness. While we actively explore courses in a wide variety of nurturing techniques, we realize that the highest vibration is the Pure-Love Energy of Christ. We recognize that He is The Source, we are the vessels who carry His Living Water. He is the healer; we are His instruments. We seek greater attunement with His healing energy by claiming the power of Pure-Love Energy in our lives. We are "Raising Our Resonance to JOY!" by attuning ourselves to the Tone, Frequency and Vibration of His Pure Love.. We are conductors of the faith to make lasting changes in our personal lives as we belong to a "Cherishing Circle" of believing women!

THE SCENTIMENTAL JOURNEY

"Some things cannot be seen or heard or touched...
Joy...simply must be...felt."

As friends, on our own healing journeys, we join paths in "Cherishing Circles", as well as in our individual Joy Coaching Sessions. These workshops include topics of interest such as; creating your own self-nurturing program, utilizing the gifts of the five senses; accessed through the healing art of meditative breath-work, guided visualization, therapeutic touch, music as therapy, energy-foods, herbs, essential oils for spiritual-emotional-physical preparedness, overcoming scarcity issues, touch deprivation issues, claiming abundance, Cellular Symphonics with **Vibrational Harmonics Massage**, emotional clearing, etc. We are taking "joyful measures" hand-in-hand to achieve our true potentials as healers, wives, mothers, single mothers, sisters, daughters and friends, by developing the ultimate gift for ourselves and loved ones; The application of Unconditional Love through the art of Cherishing ourselves and others.

CHERISHING SESSIONS

Karyn is Utah's first Certified Vibrational Attunement Massage Therapist! She encourages Vibrational Attunement Massage as it reaches into the cells in order to release deep energetic-emotional blocks by messaging them through the gift of compassionate touch. In this way, she "plays the body like a musical instrument" vibrationally attuning heart-mind-body-spirit for achieving the higher resonance of JOY 540! Using the physical senses, she harmonizes the Heart-Mind-Body-Spirit; with messages that the body may need to "hear" vibrationally in order to experience greater measures of happiness. "Whispering" messages of unconditional love to the human spirit awakens her clients to an increasing awareness of their divine potential. Her repertoire of inspiring Songs, Scents and Guided Visualizations infuse Pure-Love Energy into the body through the senses. Karyn feels that without the sense of true cherishing, no therapy is complete as the human spirit needs to "feel" the energy of the pure love of Christ in order to be made whole.
